Good morning Mr. Hansen,

I had the opportunity to read the article you submitted on CheckCU.org on January 9, 2024 regarding Yorkville CUSD 115 and wanted to provide you with the following.

Your article inaccurately states that the school board refused an Attorney General order to produce the closed session recording. In fact, the school board hasn't had a meeting yet to consider whether to comply or challenge the Attorney General opinion. The District's FOIA response linked in your article accurately stated that the records are currently prohibited from disclosure by Section 2.06 of the Open Meetings Act, but advised, '[T]he Board may consider whether to release the August 7, 2023, closed minutes and/or recording at its next Board meeting, so you may wish to resubmit your request for those documents after that meeting.' Please correct immediately what appears to be a willful, intentional misstatement of fact in your article that the school board has determined not to comply with the Attorney General's opinion, or that it has made any decision in that regard.

Sincerely,

Brent Edwards
